

PROFESSIONAL LEARNING WITH LYN STONE

Lexicons for Life

Connecting Sound, Meaning, and Memory in Literacy Instruction

A one-day workshop with Lyn Stone

Lexicons for Life is a brand-new professional learning event designed in response to educators' requests for more live rehearsal, more real classroom guidance, and more time to work with the words that matter most to them.

Rather than a one-size-fits-all workshop, this course combines the most practical elements of Spelling for Life, Reading for Life, Writing for Life, and the Morphology Masterclass into a single high-impact session. It delivers what teachers have consistently asked for:

 Clear routines with real, contextual word study

 Practical demonstrations of morphology, spelling conventions, and etymology

 A collaborative focus on what this looks like in actual classrooms, with actual students
